

# AF-30

## PRODUCT DESCRIPTION:

Proprietary blend of Alkylbenzene, Sulfonates and Olefin Copolymers

## TYPICAL PROPERTIES:

Appearance	Dark Liquid
Specific Gravity	0.935 @77°F
Flash Point (TCC)	145°F
Activity	100%

## PRODUCT USES:

AF-30 is a concentrated base used to formulate products for preventing fouling of heat exchangers in refinery process streams. It is primarily designed for high temperature applications involving coke formation.

## APPLICATION:

AF-30 should be diluted to a 30% solution in HAN. Maximum dosage rates should not exceed 25 ppm.

## HANDLING:

AF-30 IS COMBUSTIBLE. If contacted on skin wash with soap and water. Do not take internally. Wear protective clothing when handling this product, including gloves goggles, and aprons.

## AVAILABILITY:

AF-30 is available in drum or bulk quantities.
